

K-Love is a staple to my (and friends) life. Our local community does not have any source of Christian Music. All radio stations here are 95% advertising and 5% music resulting in yet another source of media static to our senses. I feel that K-Love's uninterrupted non-advertising station gives 100% of the encouragement and witness that they are so truthfully trying to send out. Our Local community would be lost without K-Love and I feel that the city would decline to be an encouraging place to live with the lack of the ministry K-Love offers.
